## **FREQUENTLY ASKED QUESTIONS**

**Q: Are electric vehicles safe to ride in rain or wet conditions?**

A: Yes, all Besto Electric Vehicles are designed with water-resistant components. However, it is recommended to avoid submerging the vehicle in water or using it in heavy flooding.

**Q: What is the average charging time for Besto EVs?**

A: Charging time varies between models. On average, it takes 3 to 6 hours to fully charge a vehicle.

**Q: What kind of warranty is offered?**

A: 18-24 months.

**Q: How long does the battery last?**

A: Graphene batteries last 2–3 years or 700–900 charge cycles. Lithium batteries (e.g., CG1500) last 3–5 years or 1200–1500 cycles.

**Q: How long does the battery last?**

A: Graphene battery: PKR 40,000

Lithium battery: PKR 65,000

**Q: Do you offer installment plans for batteries?**

A: Currently no, but we are working towards offering this in the future.

**Q: Can I change my petrol bike into an electric vehicle with Besto?**

A: No, we only provide ready-made Besto EV scooters and bikes.

**Q: Do you provide after-sales service?**

A: Yes, all Besto customers receive free after-sales service.

**Q: Do you deliver all over Pakistan?**

A: Yes, we deliver nationwide and have dealers in different cities where you can also book test rides.

**Q: How do I book online?**

A: Visit [www.bestoev.com](http://www.bestoev.com), click on Book Now, fill in the form, and our sales team will get in touch with you.
