FREQUENTLY ASKED QUESTIONS

Q: Are electric vehicles safe to ride in rain or wet conditions?

A: Yes, all Besto Electric Vehicles are designed with water-resistant components. However, it is recommended to avoid submerging the vehicle in water or using it in heavy flooding.

Q: What is the average charging time for Besto EVs?

A: Charging time varies between models. On average, it takes 4 to 6 hours to fully charge a vehicle.

Q: What kind of warranty is offered?

A: 18-24 months.

Q: How long does the battery last?

A: Graphene batteries last 2–3 years or 700–900 charge cycles. Lithium batteries (e.g., CG1500) last 5–6 years or 2000–2500 cycles.

Q: How much does it cost to replace battery?

A: Graphene battery: PKR 35,000- 40,000

Lithium battery: PKR 50,000- 60,000

Q: Do you offer installment plans?

A: Currently no, but we are working towards offering this in the future.

Q: Can I change my petrol bike into an electric vehicle with Besto?

A: No, we only provide ready-made Besto EV scooters and bikes.

Q: Do you provide after-sales service?

A: Yes, all Besto customers receive free after-sales service.

Q: Do you deliver all over Pakistan?

A: Yes, we deliver nationwide and have dealers in different cities where you can also book test rides.

Q: How do I book online?

A: Visit www.bestoev.com, click on Book Now, fill in the form, and our sales team will get in touch with you.
